To Whom It May Concern:

Aztec Contractors, Inc. performs with the highest standards of quality, professionalism, and integrity. They do what they say they will do, when they say they will, and do it very well.

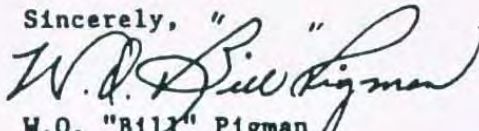

Frank X. Spencer was a life saver for Reeves County when he took over the construction of the Reeves County Law Enforcement. Reeves County entered into a contract with a firm to build a 500-bed prison and half-way through the project the firm breached the contract. The finance company and Reeves County asked Mr. Spencer to take over the project; Mr. Spencer completed each phase of construction within schedule to allow prisoners to be housed at the facility, thereby making it possible for Reeves County to receive revenue from the Federal Government and to meet the installment payment deadline on our lease purchase agreement.

Mr. Spencer's performance and professionalism on the Reeves County Law Enforcement Center was so exemplary that we awarded the construction of Reeves County Civic Center, Reeves County Juvenile Detention Center and the most recent Kitchen/Dining Room Addition to the Reeves County Law Enforcement Center to him.

I have known Mr. Spencer for a number of years and my business association with him, has been nothing but great. I know him to be a very outstanding citizen and community leader.

Anyone about to embark on a construction project would benefit from Aztec Contractors, Inc. expertise and their commitment to excellence. I have, and look forward to working with Aztec Contractors, Inc.

Sincerely, "

W.O. "Bill" Pigman
